

An executable residual is not a transfer guarantee

TARGET-TRAINED KPI

same API

UNSEEN SHIFTED KPI

PATTERN COVERAGE

20 generators x 8 variants
random transforms + context incidents
-> one benchmark-independent checkpoint

RELIABILITY FLOOR

rolling median + spectral + MAD
fixed 85% guard budget under shift
-> inspectable fallback evidence

TShape-Zero+ = 15% learned shape evidence + 85% residual guard

Both channels are returned, measured, and ablated separately.
